* The Biology I and II sequence will prepare students for college credit via exams such as Advanced Placement.
 # Students will take either Calculus-based Physics or non-Calculus Physics depending on their math proficiency.
 ** Literature and Latin will have two tracks: one for students who have begun the sequence in middle school; the second for students starting Stella Maris in 9th grade or higher.
 † Theology course titles represent dominant themes coordinated with the Literature & History Curriculum; however, each course includes various modules, including Spiritual Practices, Moral Theology, and Theology of the Body.
 ‡ History and Literature course titles represent the focus of material covered; world history and literature are included in each course.
 ° Economics will be covered primarily in the 11th and 12th grade years as part of the integrated History & Literature curriculum.
